

Mateo Tuberquia Giraldo

Senior Data Engineer | Data Scientist | Statistician

mateotuberquiagiraldo@gmail.com · +57 305 390 1087 · Medellín, Colombia · [linkedin.com/in/mateogiraldo2](https://www.linkedin.com/in/mateogiraldo2)

1

Data Engineer and Statistician with 4+ years of experience designing scalable data pipelines, ETL architectures, and analytics solutions across healthcare, telecoms, and financial services. Currently building enterprise-grade pipelines in Databricks (Spark/SQL) at Softtek. Proficient in Python, PySpark, SQL, and AWS ecosystem tools (Glue, S3, Athena, Lambda). Solid background in data modeling, data quality frameworks, and CDC-based architectures. Pursuing a Master's in Statistics at Universidad Nacional de Colombia, with hands-on experience leveraging AI-assisted development tools. Available to work 100% remotely.

1

Cloud & Infrastructure:	AWS (Glue, S3, Athena, Lambda, EMR) · Azure Synapse · IaC (CloudFormation – in progress)
Languages & Frameworks:	Python (pandas, numpy, scikit-learn, TensorFlow) · PySpark · SQL (PostGIS) · R · SAS
Data Engineering:	ETL/ELT Pipeline Design · CDC Architectures · Batch & Streaming Ingestion · dbt (familiar)
Big Data & Warehousing:	Databricks · Spark · Snowflake (familiar) · Azure Synapse
Data Quality & Governance:	Validation Frameworks · Data Modeling for Analytics · Pipeline Monitoring
BI & Visualization:	Power BI · DAX · Tableau · Google Data Studio · Qlik
DevOps & Collaboration:	GitHub · CI/CD · Version Control · AI-assisted Dev Tools
Statistical & Spatial:	Applied Statistics · Predictive Models · Spatial Analysis · GIS (QGIS)

1

Data Management Engineer

Softtek · Remote

Nov 2025 – Present

- Design and development of scalable data pipelines in Databricks using Spark and SQL, aligned with enterprise analytics needs.
- Implementation of CI/CD workflows and production deployments via GitHub and Databricks, applying modular and reusable design patterns.
- Optimization and integration of data solutions for analytics platforms including Qlik and Azure Synapse, ensuring data reliability and performance.
- Proactive identification of bottlenecks and optimization opportunities across data workflows.

Statistical Leader

University of Antioquia · Medellín

May 2024 – May 2025

- Methodological support in the National Demographic and Health Survey (Ministry of Health), processing and validating large-scale population datasets.
- Applied statistical techniques to ensure data quality and integrity across the survey pipeline.

Data Professional

Parque Explora · Medellín

Mar 2023 – Dec 2023

- Automated strategic reports using Google Data Studio, reducing manual effort and improving delivery time.
- Cleaned and modeled historical data to build forecasting models for attendance metrics.

Junior Data Analyst

Fi Group · Remote

Aug 2022 – Feb 2023

- Built interactive dashboards in Power BI using DAX; optimized SQL queries on complex databases.
- Identified efficiency opportunities in R&D projects through data-driven analysis.

Academic Internship – Data Analyst

Tigo · Medellín

Jul 2021 – Jan 2022

- Managed and cleaned large-scale datasets; automated information collection for the operations department.

Academic Internship – Statistical Modeler

ISA · Medellín

Jan 2021 – Jul 2021

- Developed non-homogeneous Poisson models for fault detection; applied time series analysis for predictive maintenance.

1

Master's in Statistics — Universidad Nacional de Colombia

In progress, 2024–2026

Bachelor's in Statistics — Universidad Nacional de Colombia

2022

1

- AWS Intermediate — MinTic TalentoTech (2025)
- Diploma in Data Analysis with Python (2023)
- Python and Statistics for Financial Analysis — HKUST / Coursera (2020)
- Programming for Everybody — University of Michigan / Coursera (2020)
